

TRƯƠNG VĨNH THÀNH

FRONTEND DEVELOPER

+84 797 200 168 | tvinhthanhsg@gmail.com | github.com/tvinhthanh | Ho Chi Minh City, Vietnam

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of overall experience building production web and mobile applications, specializing in React, Next.js, and TypeScript. Strong in responsive interfaces, reusable component design, REST API integration, and real-time features with WebSocket. Experienced in SSR/SEO, Core Web Vitals, bundle optimization, Playwright testing, and collaborating across Node.js/NestJS services in Agile/Scrum delivery environments.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, SCSS
State & Data	SWR, server-state caching, REST API integration, data-driven UI, dashboards and charts
Realtime	WebSocket, event-driven UI, optimistic updates, loading and error states
Testing	Playwright, end-to-end testing, API and integration testing
Performance & SEO	SSR/SSG, technical SEO, Core Web Vitals, bundle optimization, lazy loading, responsive design
Build & Tooling	npm, yarn, Vite, Webpack, Git, GitHub, Jira, Figma
Backend Collaboration	Node.js, NestJS, Express.js, Laravel/PHP, C#, RESTful APIs, Webhooks, Redis, BullMQ
Delivery	Agile/Scrum, Docker, Jenkins CI/CD, Nginx, Cloudflare, Payload CMS, WordPress
AI & Automation	OpenAI APIs, Whisper, Prompt Engineering, AI Coding Assistants, n8n, AI workflow integration

PROFESSIONAL EXPERIENCE

Full-Stack Developer | TGR Fusion

Jun 2025 - Present

- Own frontend delivery for production applications using React, Next.js, and TypeScript, from responsive UI implementation through API integration and release support.
- Build complex user journeys for authentication, payments, wallets, content access, and account verification with clear loading, error, and permission states.
- Integrate RESTful APIs, webhooks, and WebSocket events while collaborating with Node.js/NestJS backend services.
- Improve discoverability and runtime performance through SSR, metadata and sitemap work, Redis caching, bundle optimization, and Core Web Vitals improvements.
- Develop and validate real-time, data-driven interfaces; increase release confidence with Playwright end-to-end testing.
- Collaborate with product, QA, and design teams through Git/Jira and Agile/Scrum workflows; contribute to React Native mobile features when needed.

Frontend Developer | Playouu Company

Jun 2024 - Jun 2026

- Built production web applications with React, Next.js, TypeScript, and Tailwind CSS across social, e-commerce, and interactive product features.
- Created reusable UI systems including dashboards, charts, filters, forms, and data-heavy components.
- Integrated REST APIs, WebSocket events, caching, and database-driven flows to deliver responsive, real-time experiences.
- Optimized responsive behavior, rendering performance, and usability across desktop and mobile devices.
- Collaborated with backend, product, design, and QA teams through Git- and Jira-based delivery workflows.

Full-Stack Developer | Freelance

Jan 2023 - Present

- Develop and maintain project-based web applications using React/Next.js, Node.js/NestJS, Laravel/PHP, C#, and WordPress/CMS based on client requirements.
- Build responsive, reusable interfaces, integrate REST APIs, and implement backend/database features and third-party integrations when required.
- Work directly with clients to clarify requirements, estimate scope, troubleshoot issues, and deliver maintainable production-ready features.
- Apply technical SEO and performance practices including semantic HTML, metadata, image optimization, lazy loading, caching, and Core Web Vitals improvements.
